# Module 5 – Tools for Gamification and Serious Games

## Hands-on Activity

### Ecological Thinking!

Think before printing, if it is necessary. In case something needs to be printed, it is worth thinking about where to print it (e.g., local print shop, ecofriendly online print shop, etc.), on what kind of paper (e.g., recycled paper, grass paper, other alternatives to usual white paper) and with what kind of colors.

**Let's protect our environment!**

# Hands-on Activity

## Module 5

### CHECKLIST TO ANALYSE SERIOUS GAMES COMPONENTS

The purpose of this check-list is to guide you in analysing the educational effectiveness of a serious game designed for vocational education and training (VET) purposes.

This involves assessing various aspects to ensure that the game meets its learning objectives and provides a valuable learning experience.

First select a **Serious Game** then go through this simple checklist looking at the suggested criteria and indicators.

| ITEM        | EXAMPLE                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | TO BE FILLED IN |
